

Fusible Machine Appliqué Class

Lynn Rinehart

lynn@thestitchtvshow.com

Class Description

Fusible machine appliqué is a technique to add fabric to a quilt or project to create additional layers and motifs that are difficult to achieve with piecing. The student will learn how to use a variety of stitches to achieve different looks for appliqué.

Project

The project will be a wall hanging or pillow.

Duration

Half day workshop

Skills to learn in class

- Creating fusible appliqué pieces from a pattern
- Applying text in appliqué
- Machine appliqué using straight stitch, satin stitch, buttonhole stitch and other decorative stitches
- Couching thread or yarn

Supply list

- Sewing machine with variety of decorative stitches. Featherweights will not work for this class.
- Machine table and knee lift (helpful, but optional)
- Open toe appliqué foot (for Bernina #20)
- Paper scissors
- Pencil
- Small 4" scissors
- Variety of thread to match fabric choices including matching text, thread, spools, needle, yarn.
- ½ yd fabric for background
- Fat eights or scraps of 3-6 different fabrics for thread colors
- Fat quarter for text, tonal or solid black
- Grey fabric scraps
- Scrap of yarn to use as thread
- 1 yd of paper backed fusible webbing
- Optional: invisible thread
